PROFILE

Dynamic Full Stack Developer with 18 months of experience in creating seamless RESTful APIs and developing modern web applications. Skilled in JavaScript, React and Java with expertise in implementing Responsive Design for enhanced user experience. Proficient in self-managing independent projects and collaborating within a team. Eager to leverage expertise in a Web Developer role, bringing a strong foundation in web development and a passion for delivering high-quality solutions.

EDUCATION

Dec 2022 — Jun 2024

Full Stack Development, Codecool Romania

Completed an intensive program covering essential web development and software engineering topics. Gained hands-on experience with:

- **Frontend Development:** JavaScript, React, HTML, CSS.
- **Backend Development:** Java Spring Framework.
- **Databases:** Design, implementation, and querying.
- Emphasized collaboration through agile methodologies, working on real-world projects to simulate industry environments.

Oct 2017 — Jun 2020

Faculty of Electrical Engineering and Computers, Iași

Relevant Coursework:

- Computer Programming and Programming Languages
- Web Technologies

PERSONAL PROJECTS

Feb 2024 — May 2024

Personal Portfolio Website

Created a responsive and visually appealing portfolio website to showcase skills, projects, and experience.

- **Framework:** Built with Next.js for server-side rendering and improved performance.
- **Styling:** Utilized TailwindCSS and modern design principles for a clean and professional layout.
- **Features:** Interactive project showcase with detailed descriptions and visuals.
Contact form with client-side validation for direct communication.
Navigation optimized for accessibility and user experience.
- **Deployment:** Hosted using a modern CI/CD pipeline for continuous updates and scalability.

Nov 2023 — Apr 2024

EcomX

Developed a full-stack e-commerce platform to simulate a modern online shopping experience. Key features include product browsing, user authentication, and a shopping cart system.

- **Frontend:** Built with React and Tailwind CSS to create a responsive and user-friendly interface.
- **Backend:** Implemented with Java and Spring Framework for efficient data processing and secure operations.
- **Functionality:** Included product search, filtering, and secure checkout integration.
- **Database:** Designed and managed a relational database to store products, users, and orders.
- **Collaboration:** Applied Agile principles, including code reviews and version control using Git.

This project demonstrates a comprehensive understanding of full-stack development, combining modern frontend and backend technologies.

May 2023 — Aug 2023

The Employee Madness

Developed a full-stack application to assist company administrators in managing employee data efficiently.

- **Frontend:** Built with React, featuring an intuitive and responsive design tailored for administrative use.
- **Backend:** Developed a RESTful API using Node.js to handle data operations and business logic.
- **Database:** Utilized MongoDB for flexible storage of employee information, enabling scalable data management.

Apr 2024 — Jul 2024

Momentum

A full-stack task management application designed to streamline productivity for individuals and teams.

Features: Secure user authentication system with organization switching and an intuitive user interface.

Frontend: React, Tailwind CSS

Backend: Java, Spring Framework

Database: PostgreSQL

EMPLOYMENT HISTORY

Jun 2024 — Present

Data Operator, AMA R&D GROUPE

Iași

- Managed and processed orders from medical professionals, ensuring accurate data entry and handling.
- Digitized physical dental models using advanced scanning technology, contributing to the creation of digital records.
- Developed strong attention to detail and problem-solving skills through quality assurance and data validation processes.

Oct 2023 — Mar 2024

Delivery Driver, Glovo

Iași

- Developed and implemented a plan for efficient routes to minimize delivery time and fuel costs
- Maintained a professional attitude and demeanor when interacting with customers
- Utilized GPS to accurately locate delivery addresses
