# Profile

Dynamic Full Stack Developer adept in all stages of advanced web development. Over the past eighteen months, I have gained valuable experience in multiple technologies, including Java, Spring Framework, JavaScript, React, as well as SQL databases such as PostgreSQL. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

# Recent Projects

### EcomX

E-commerce platform, written in React and Spring that provides a seamless and user-friendly experience.

### THE EMPLOYEE MADNESS V2

Employee Management System that provides a robust platform for HR professionals and administrators to efficiently oversee employee information.

### FREESTYLE MERN PROJECT

A dynamic web application using the MERN stack that seamlessly integrates with the SWAPI (Star Wars API) to provide users with valuable and entertaining information related to the Star Wars universe.

# Employment History

### Full Stack Developer, Codecool Romania, Internship

DECEMBER 2022 — DECEMBER 2023

- Created RESTful APIs that allowed for seamless integration with other applications
- Implemented a Responsive Design that allowed the application to be used on various devices with the same user experience
- Developed several full stack web applications using modern technologies such as React, Node.js, and MongoDB

### Picker, Essa Sales & Distribution, Iasi

DECEMBER 2021 — MAY 2022

- Responded to customer inquiries regarding order status and delivery times
- Utilized scanning technology to locate and select products for orders
- Picked and packed customer orders accurately and efficiently
- Recommended process improvements that increased productivity

# Education

### Mathematics and Informatics, National College „Dr. Mihai Ciuca"

SEPTEMBER 2013 — JULY 2017
